PROFESSIONAL SUMMARY

Motivated third-semester Computer Science student with hands-on experience in object-oriented programming with Python and front-end web development (HTML, CSS, JavaScript). Built and deployed a luxury real estate website and is developing a full-stack Student Management System using Node.js and SQL. Skilled in Microsoft Office and graphic design, and eager to take on freelance and internship opportunities.

EDUCATION

BS Computer Science (in progress) *[University Name], [City] | 3rd Semester | Expected [Year]*

Relevant coursework: Object-Oriented Programming with Python (CS-200) covering inheritance, encapsulation, polymorphism, exception handling, file handling and data structures.

SKILLS

- **Programming:** Python (OOP), JavaScript
- **Web Development:** HTML5, CSS3, JavaScript, responsive design, Node.js, SQL (in development)
- **Microsoft Office:** Word, Excel, PowerPoint
- **Graphic Design:** Visual design and layout for digital and print
- **Tools:** Git, GitHub, GitHub Pages
- **Languages:** Urdu (fluent), English ([level])

PROJECTS

Luxe Homes: Luxury Real Estate Website *HTML, CSS, JavaScript*

Live: sohailjan934113-stack.github.io/myhomewebsite

- Designed and built a luxury property dealer website, deployed on GitHub Pages.
- Currently extending it with an admin panel, backend and database; used as a portfolio sample for freelance work.

Student Management System *HTML, CSS, JavaScript, Node.js, SQL*

- Full-stack application with login, dashboard, students, teachers, courses, attendance, marks, fees and reports pages.
- Back-end organised into routes, controllers and middleware with a SQL schema and project documentation.

Student Career Recommendation System *Python (OOP)*

- Multi-module application (student, career, matcher, main) that matches student skills to career paths using set-intersection logic and displays results with progress bars.

Python OOP Assignments *Python*

- Implemented operator overloading (__mul__, __gt__) and multi-file module examples with class imports.

ADDITIONAL EXPERIENCE

- Prepared structured exam study notes for CS-200 (OOP with Python).
- Exploring freelance web development for international clients.
